

Two Schools

Jefferson School has students in 1st grade up to 5th grade.

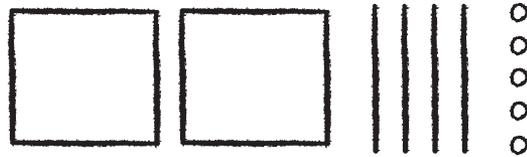

1. The number of children in 1st grade has 3 digits.
The digits in the number are 2, 3, and 8.
The digit 8 means 80 in this number.
Write a number that could be the number of children in 1st grade.
-

2. Write a number that is 10 less than the number of children you chose for 1st grade.
-

3. Write a number sentence that uses $>$, $<$, or $=$ to compare your answers from questions 1 and 2.

4. Donell uses these blocks to show the number of students in 3rd grade.

How many students are in 3rd grade?

_____ students

5. There are 100 more students in 4th grade than in 5th grade. Grade 5 has 176 students. Draw a quick picture to show how many students are in 4th grade.

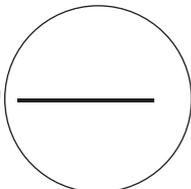

6. Write a number sentence that uses $>$, $<$, or $=$ to compare the number of students in 4th grade with the number of students in 3rd grade.

_____ ○ _____

Name _____

Yasmeen goes to Lincoln School. She counts the number of 2nd grade students who go there. The number in the circle is the total number of 2nd grade students at Lincoln School.

7. Fill in the missing numbers. Count by tens.

220, 230, _____, _____, _____, _____, 

8. Yasmeen uses tens blocks to show the number of 2nd grade students. How many tens blocks will she need?

She will need _____ blocks.

9. Suppose Yasmeen's school has 210 students in 3rd grade. How would you figure out a number that is 10 more than that? Write your answer. Explain how you know.

**The number of students at Jefferson School is even.
The number has three digits.
The digit in the tens place is 4.**

- 10.** Write three numbers that could be how many students there are at Jefferson School.

Explain how you know your answers are correct.

- 11.** Choose one of the numbers that you just wrote. Write it three different ways.

- 12.** Write a 3-digit number that could NOT be the number of students at Jefferson School.

There could NOT be _____ students.
